

Mega Class: Graph

Special class

① LC 547, Number of
Provinces

5 min → Read & Think

BFS / DFS

① Do First traversal

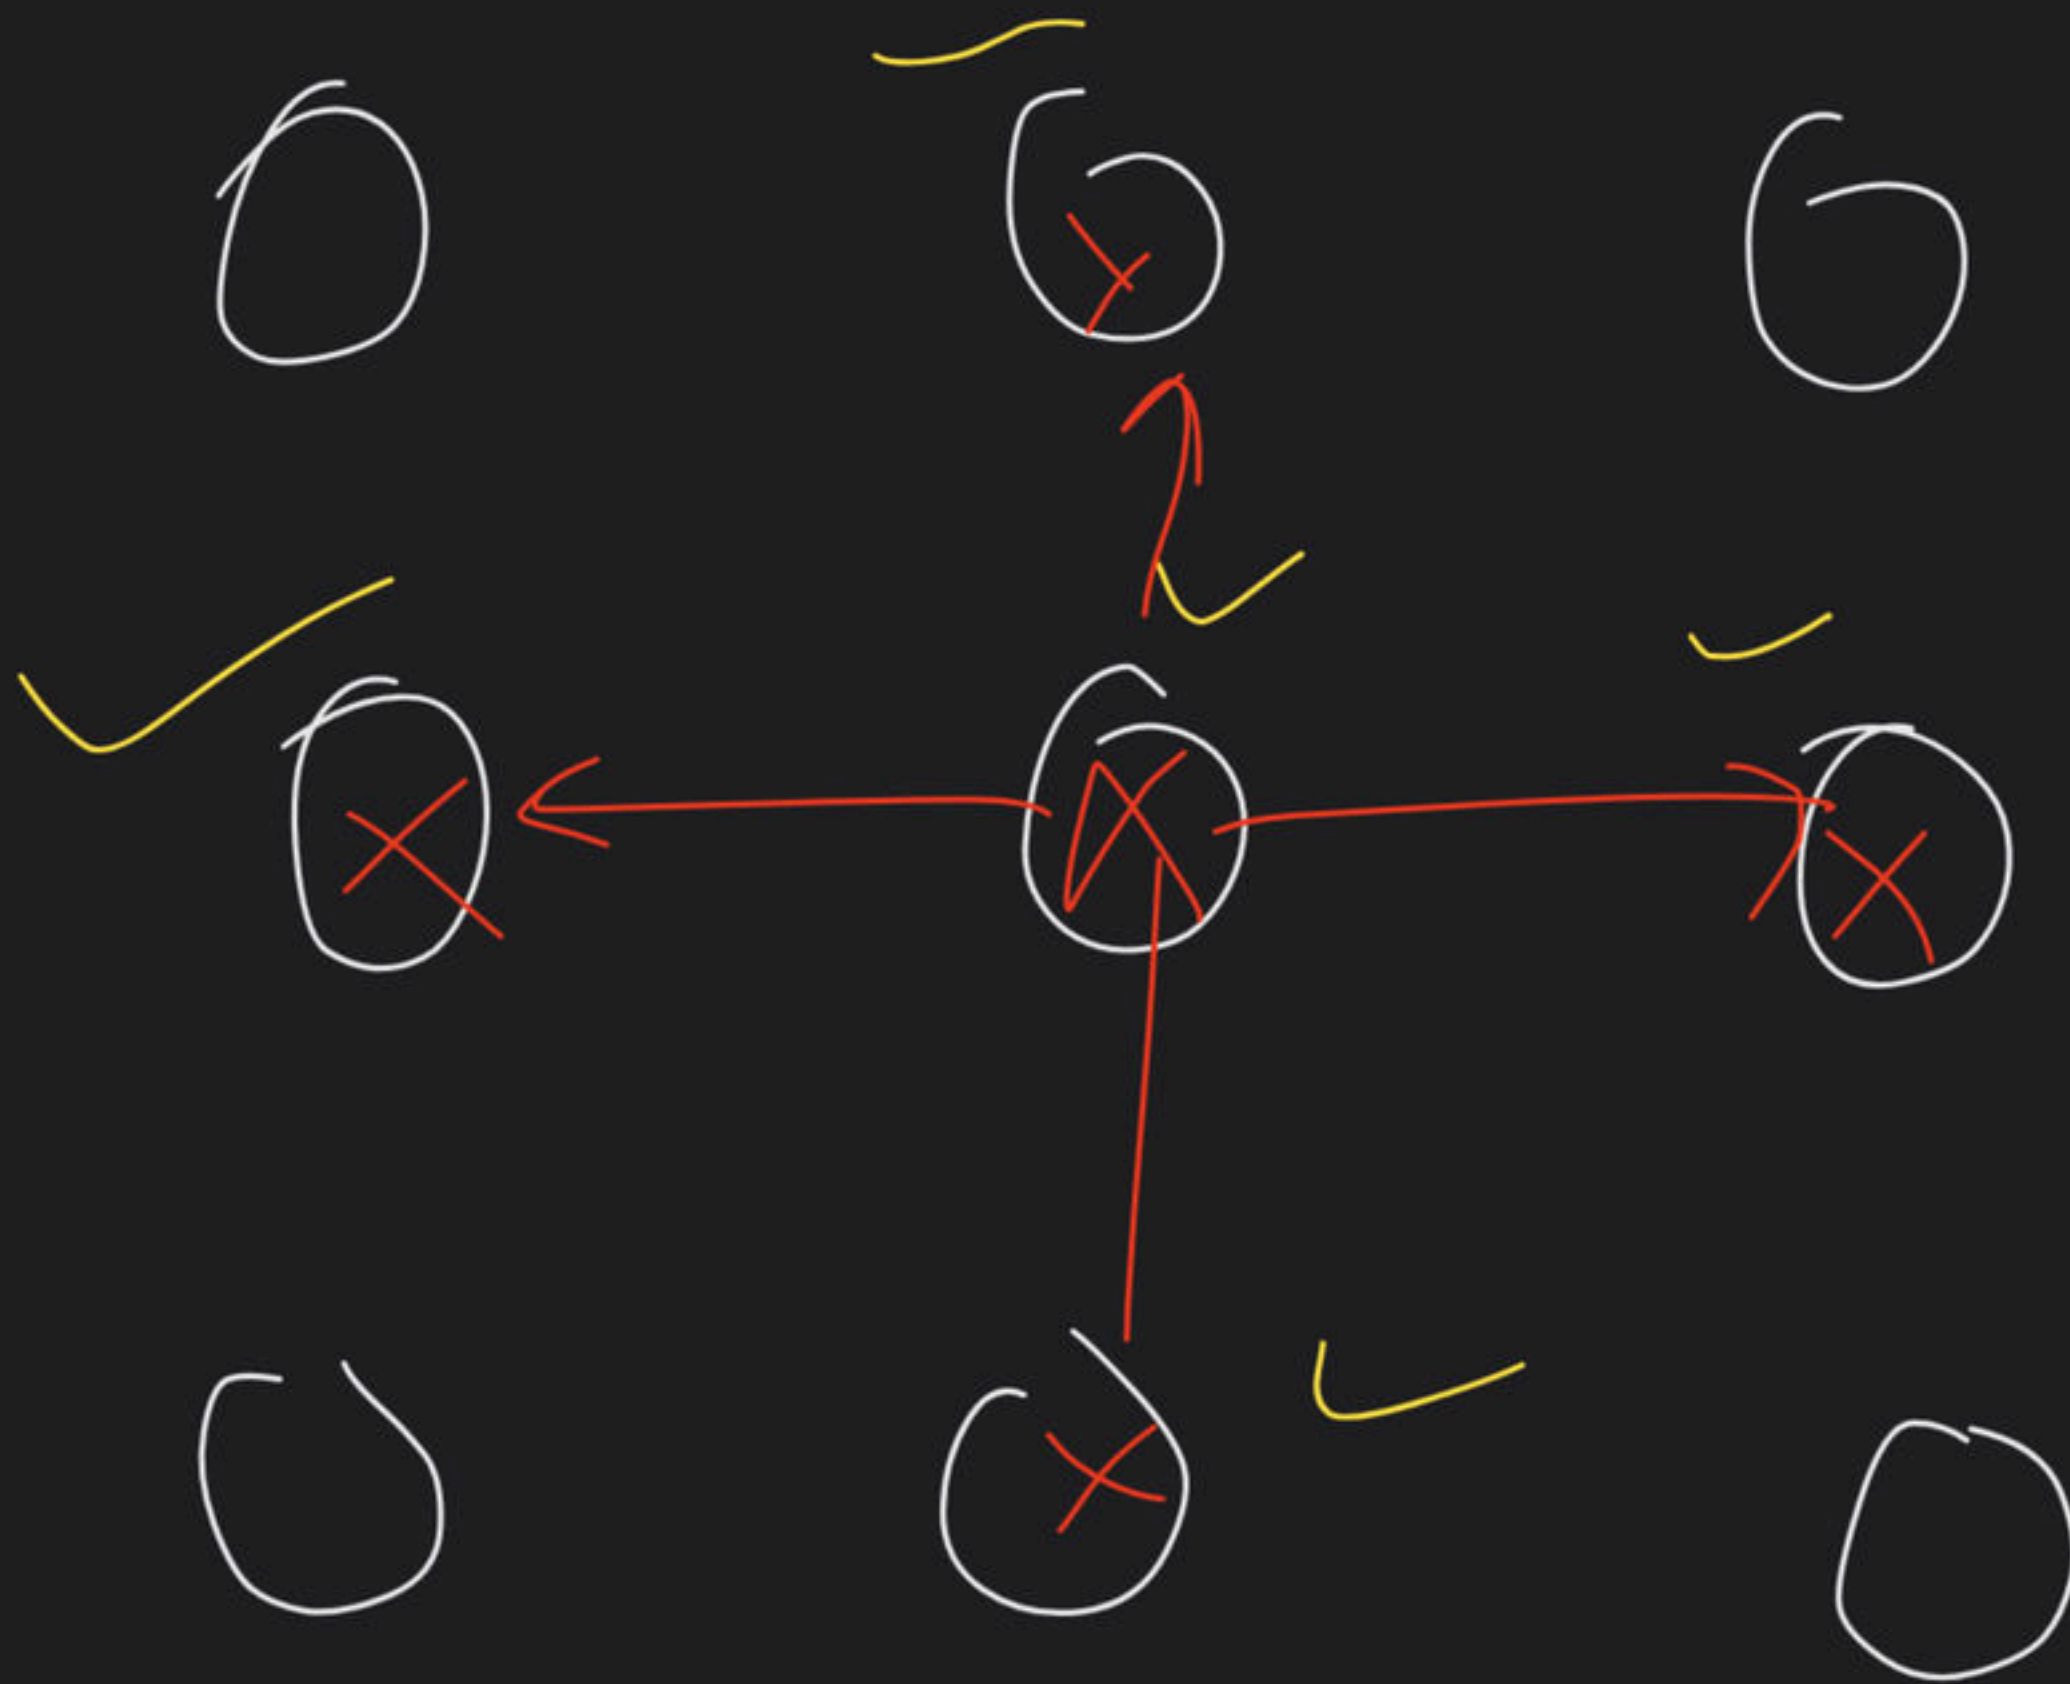

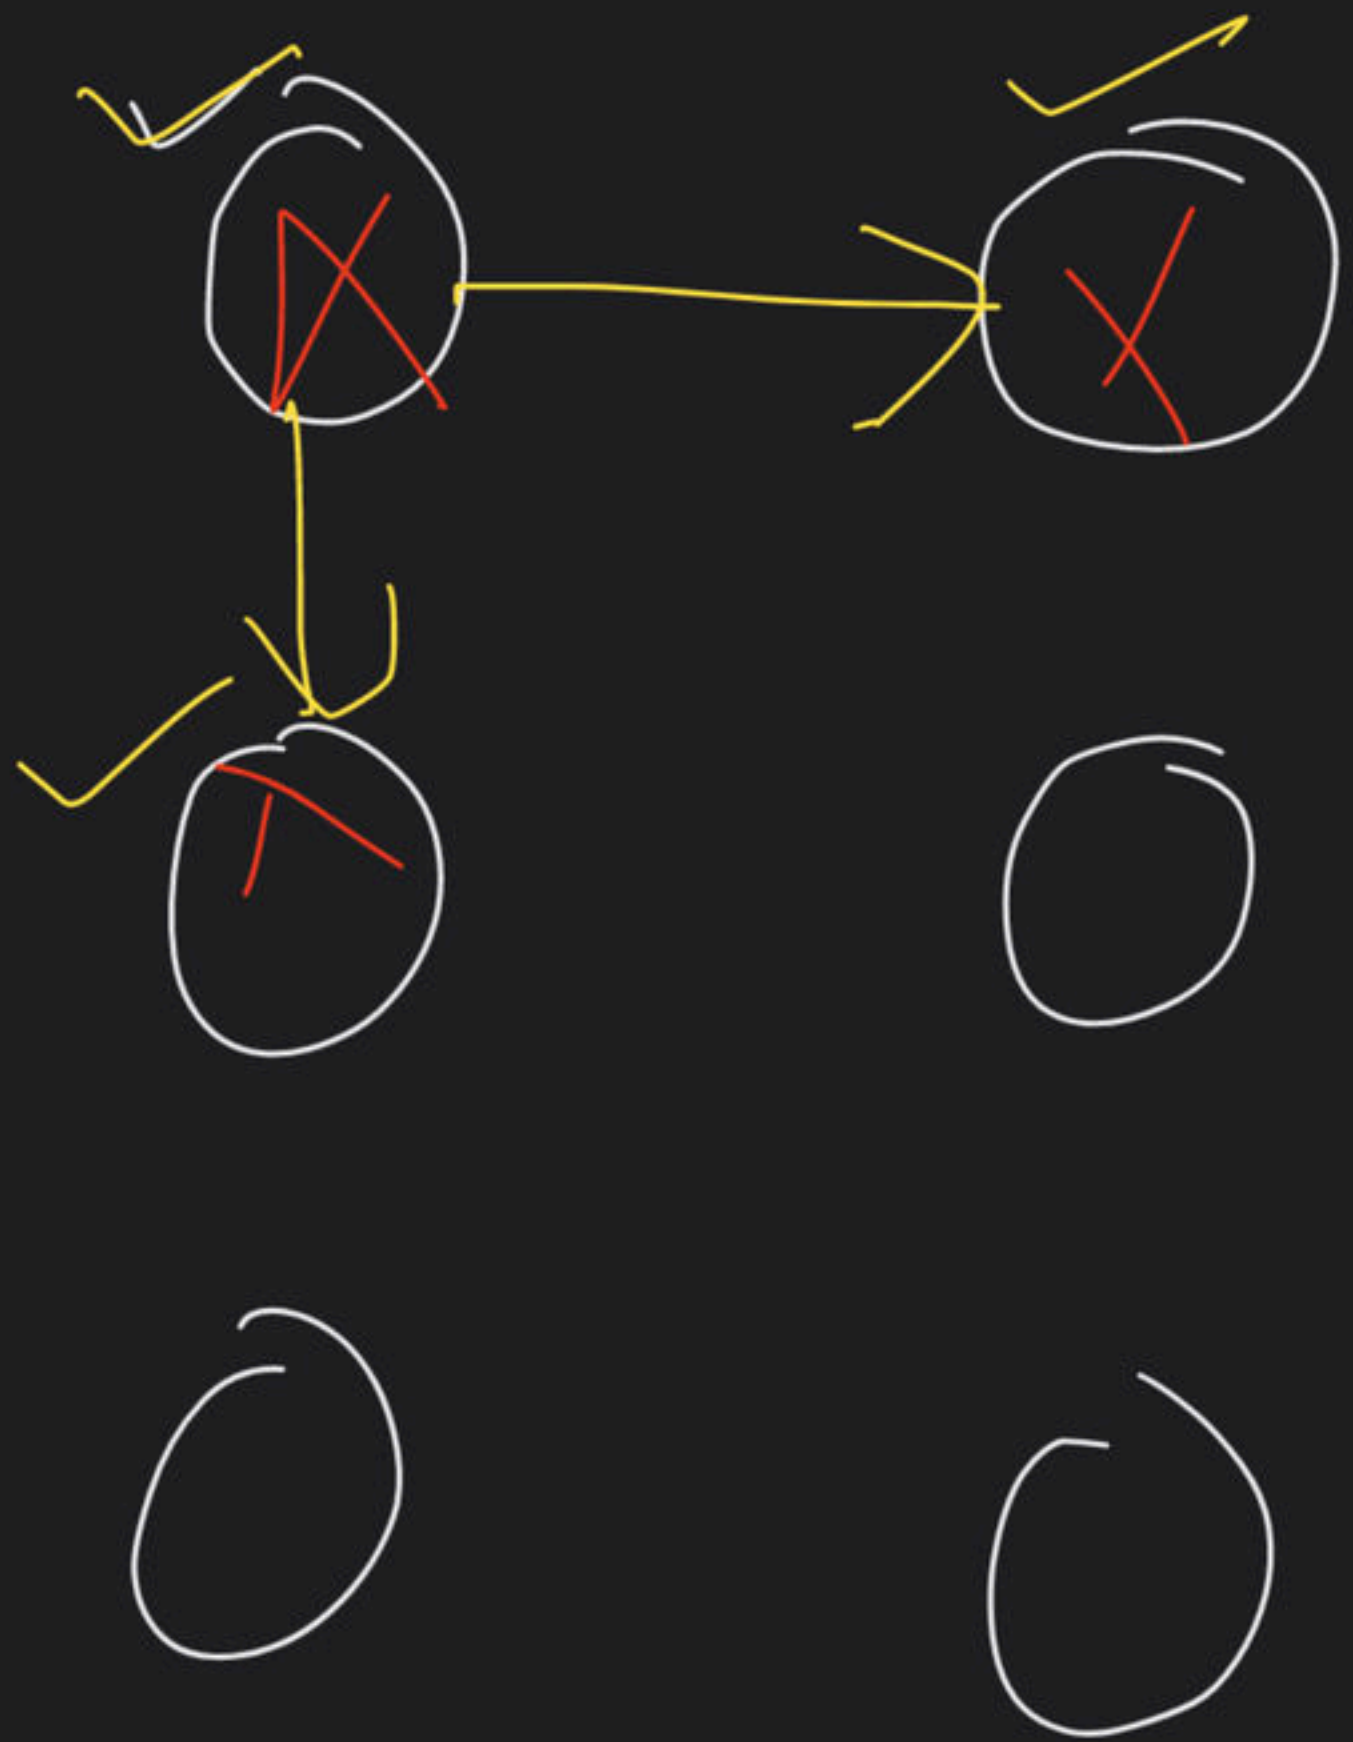

② Do next traversal

↳ Traversal from each
not which are
not visited

② 994. Rotting Oranges

5 min $\rightarrow$ Think & Read

9:30 PM

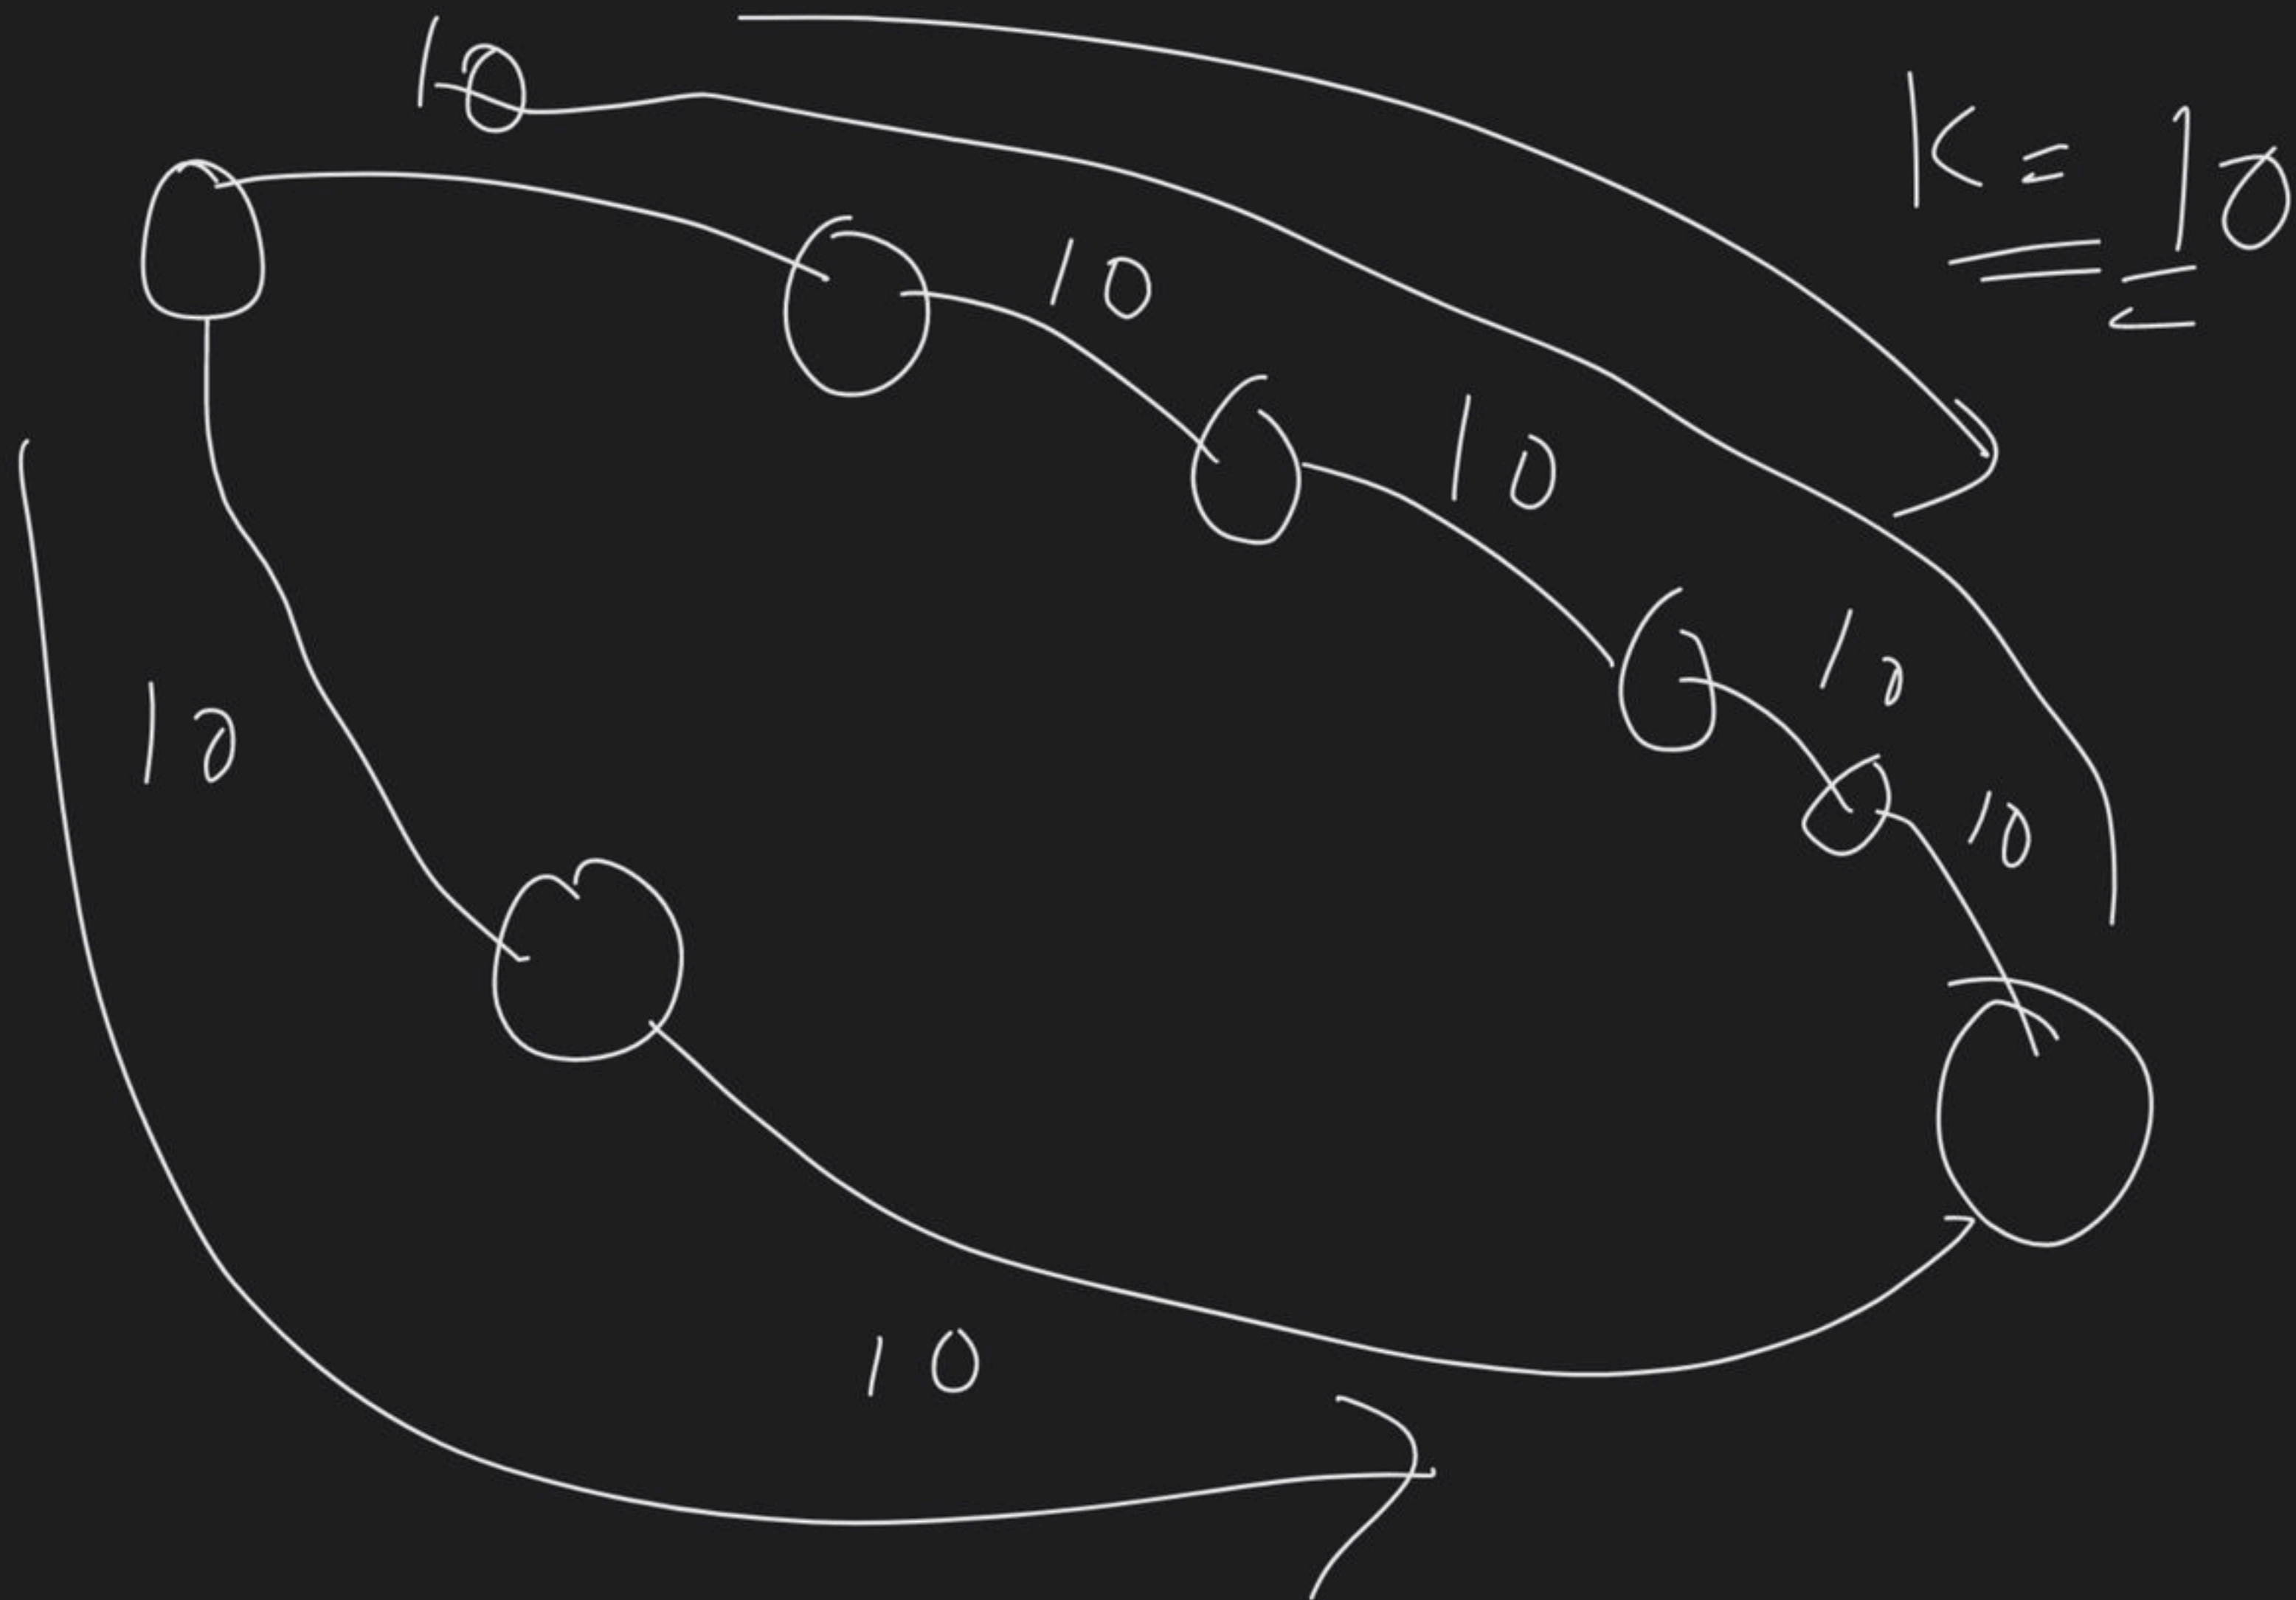

$f = 0 \Rightarrow \mathbb{Z}$
 $f = 1 \Rightarrow$

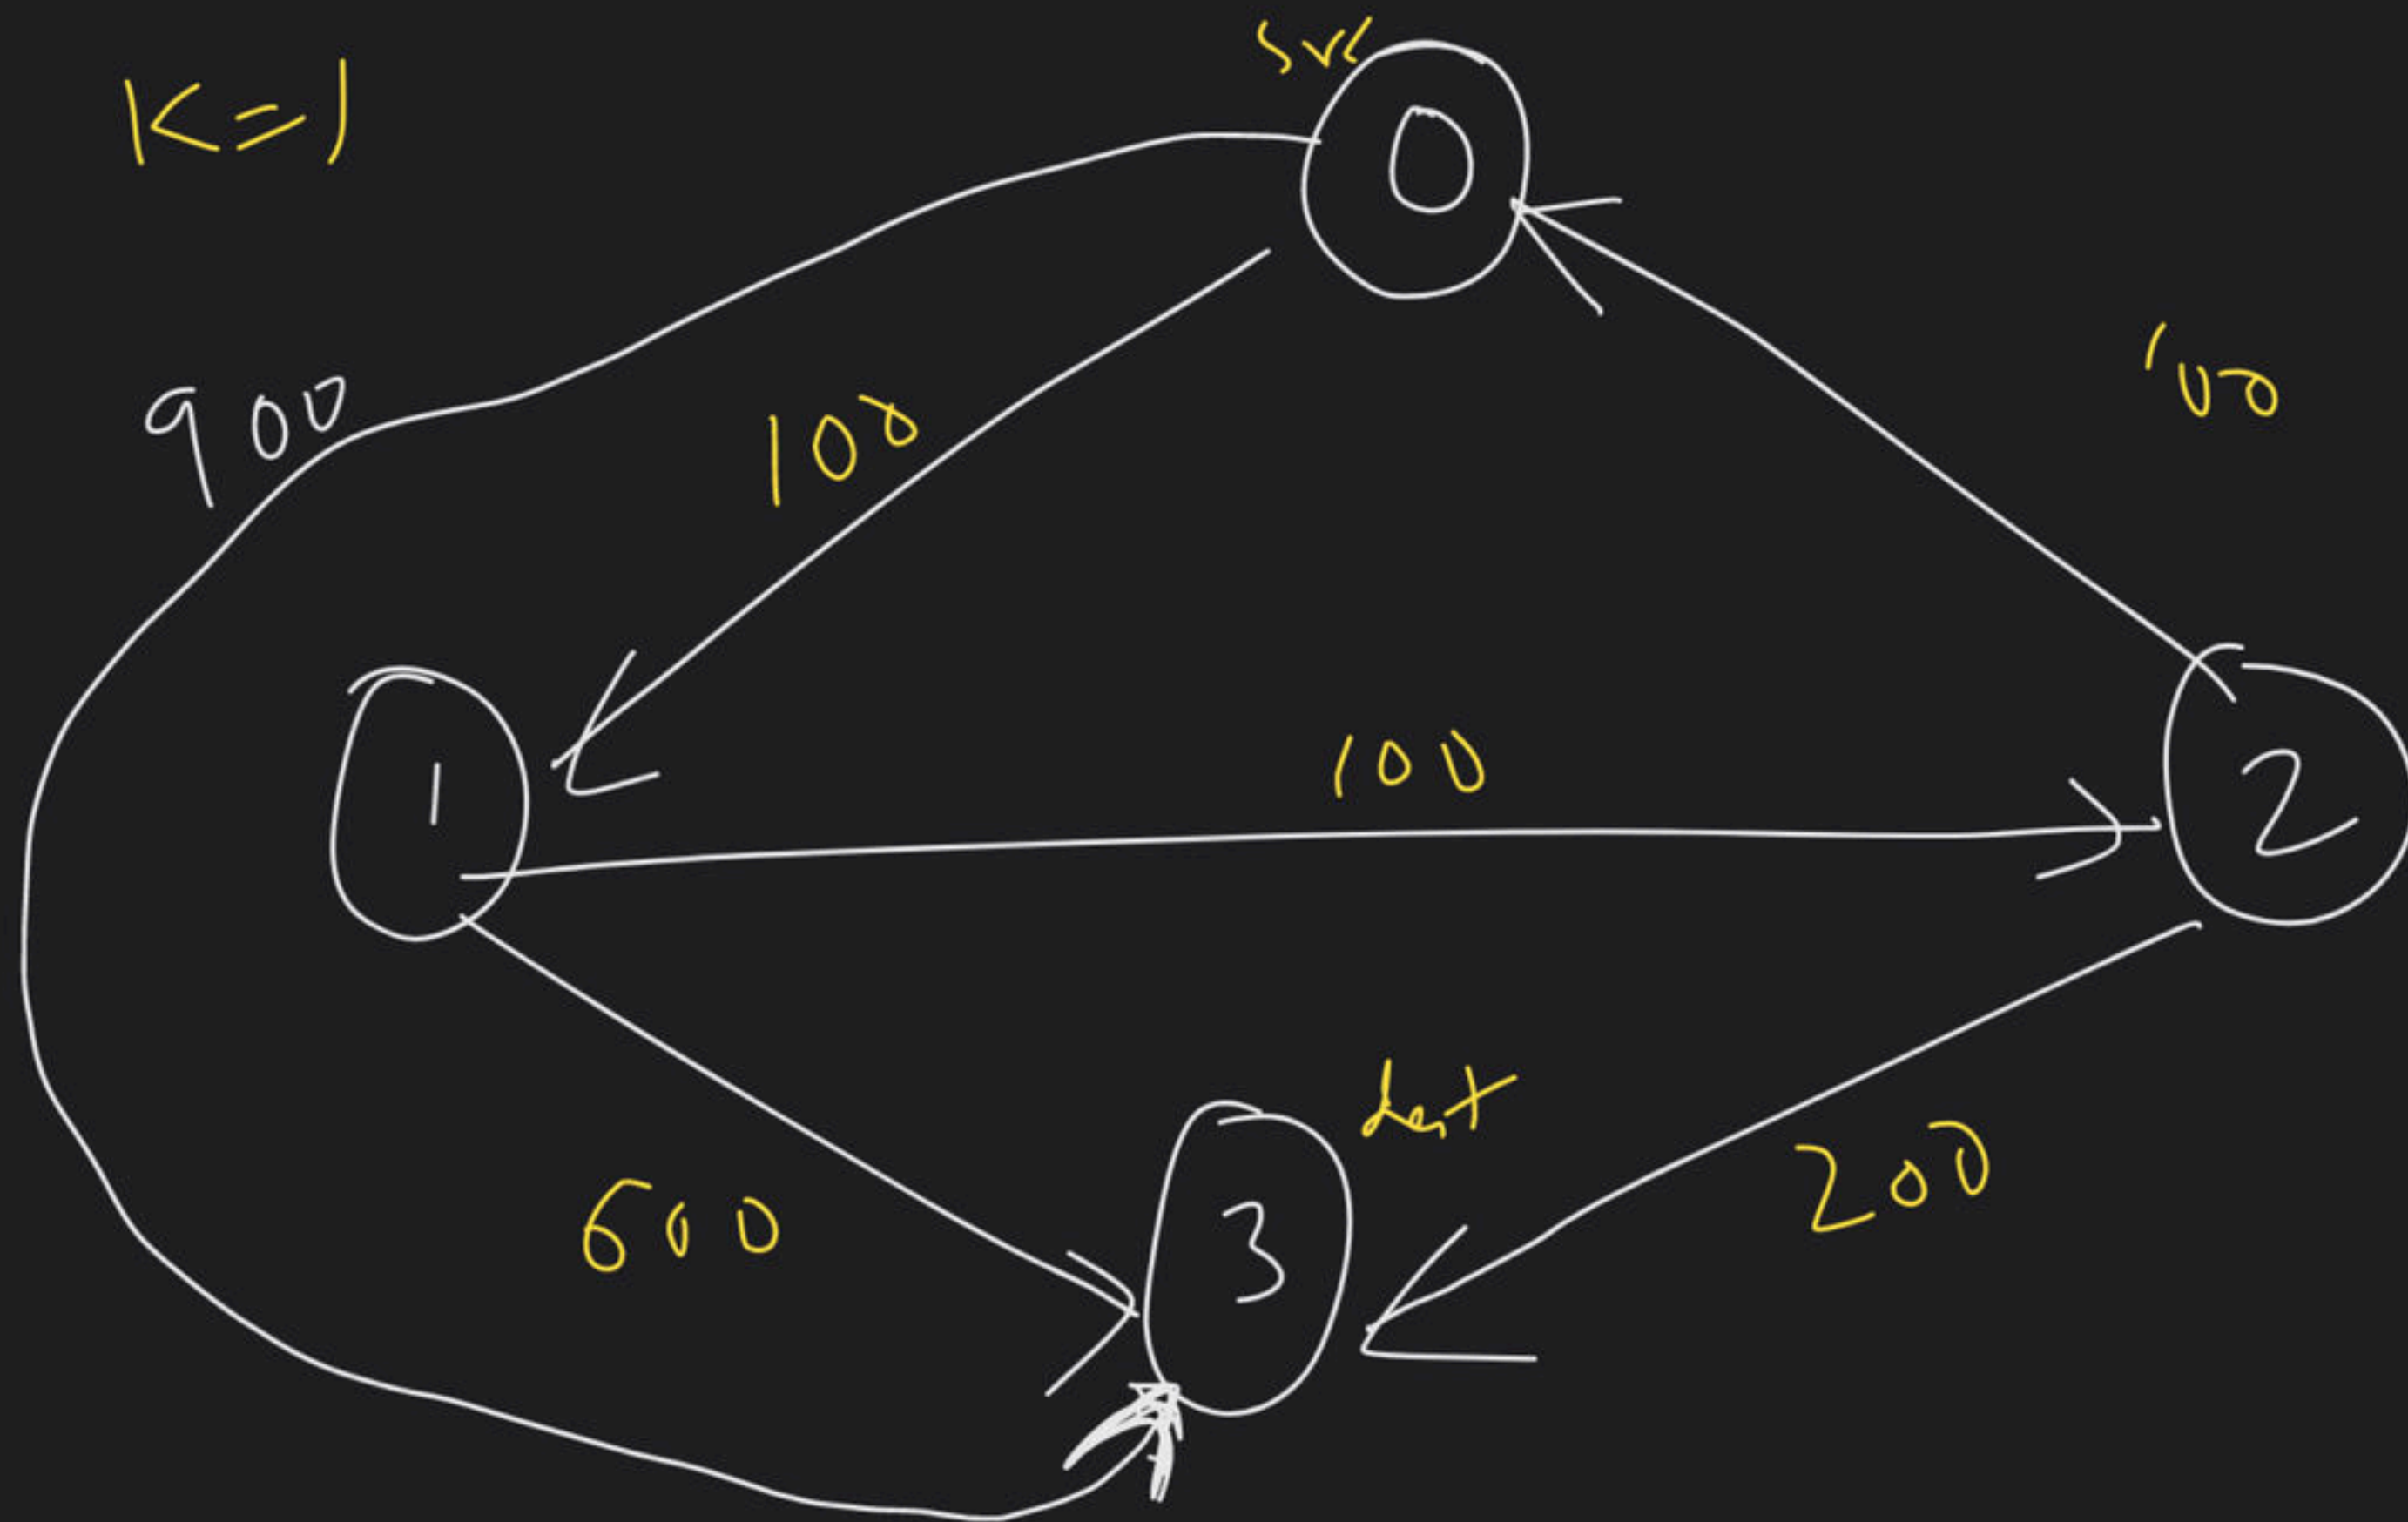

5 min Break

10:05 PM

③ LC 787 cheapest flight
within k stops

$K=1$

Cost, city, stops

700
~~{700, 3, 2}~~
~~{100, 1, 1}~~
~~{600, 3, 1}~~
~~{0, 0, 0}~~

Cost = 700
City = 3
stops = 2

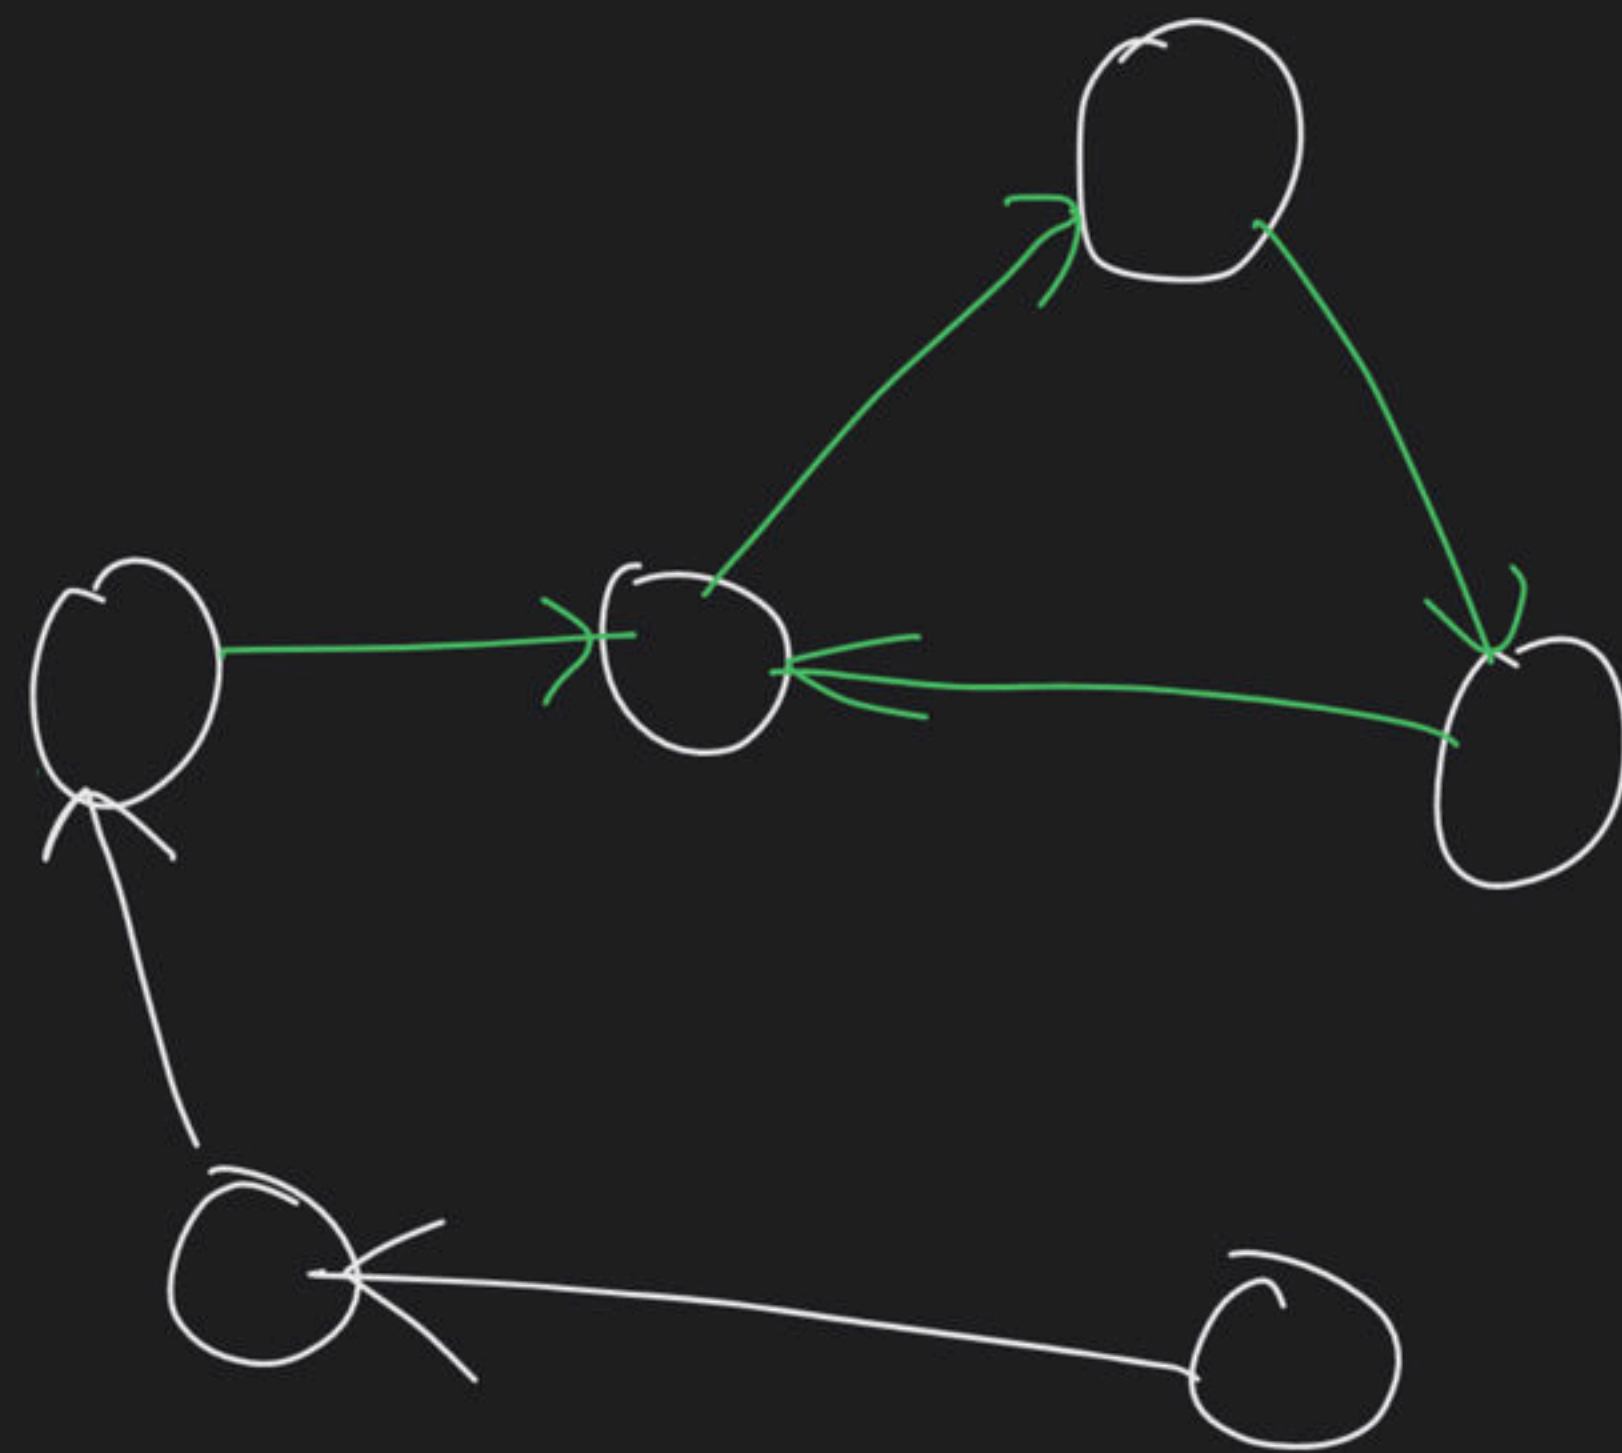

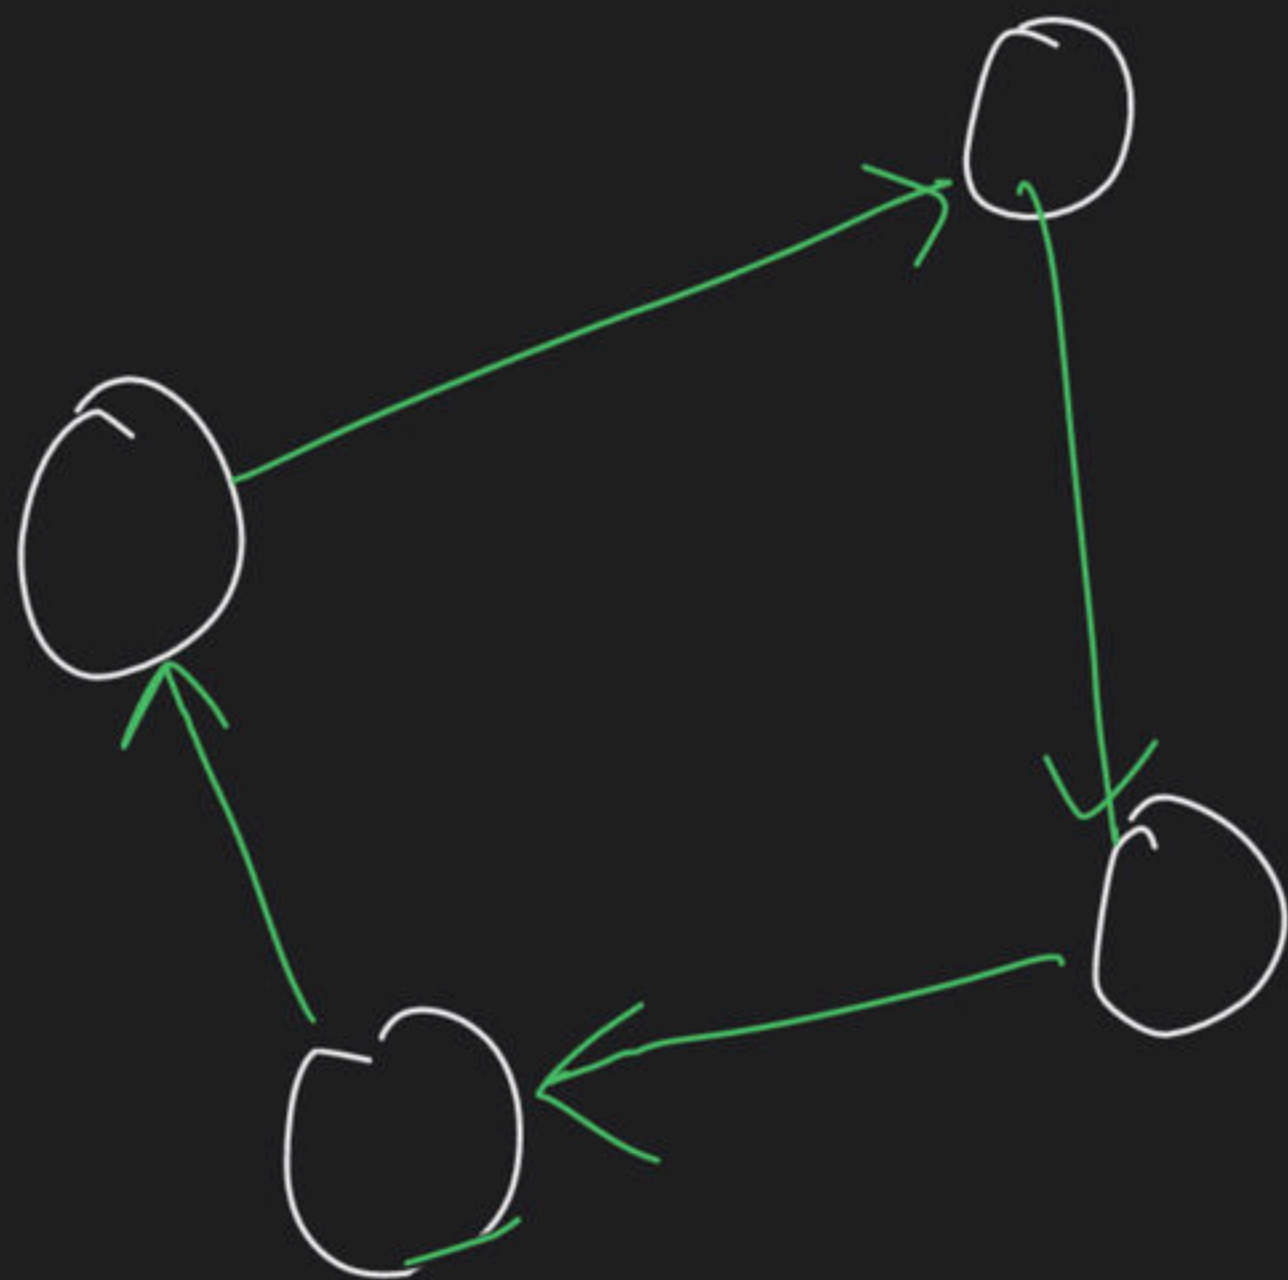

dest = 3

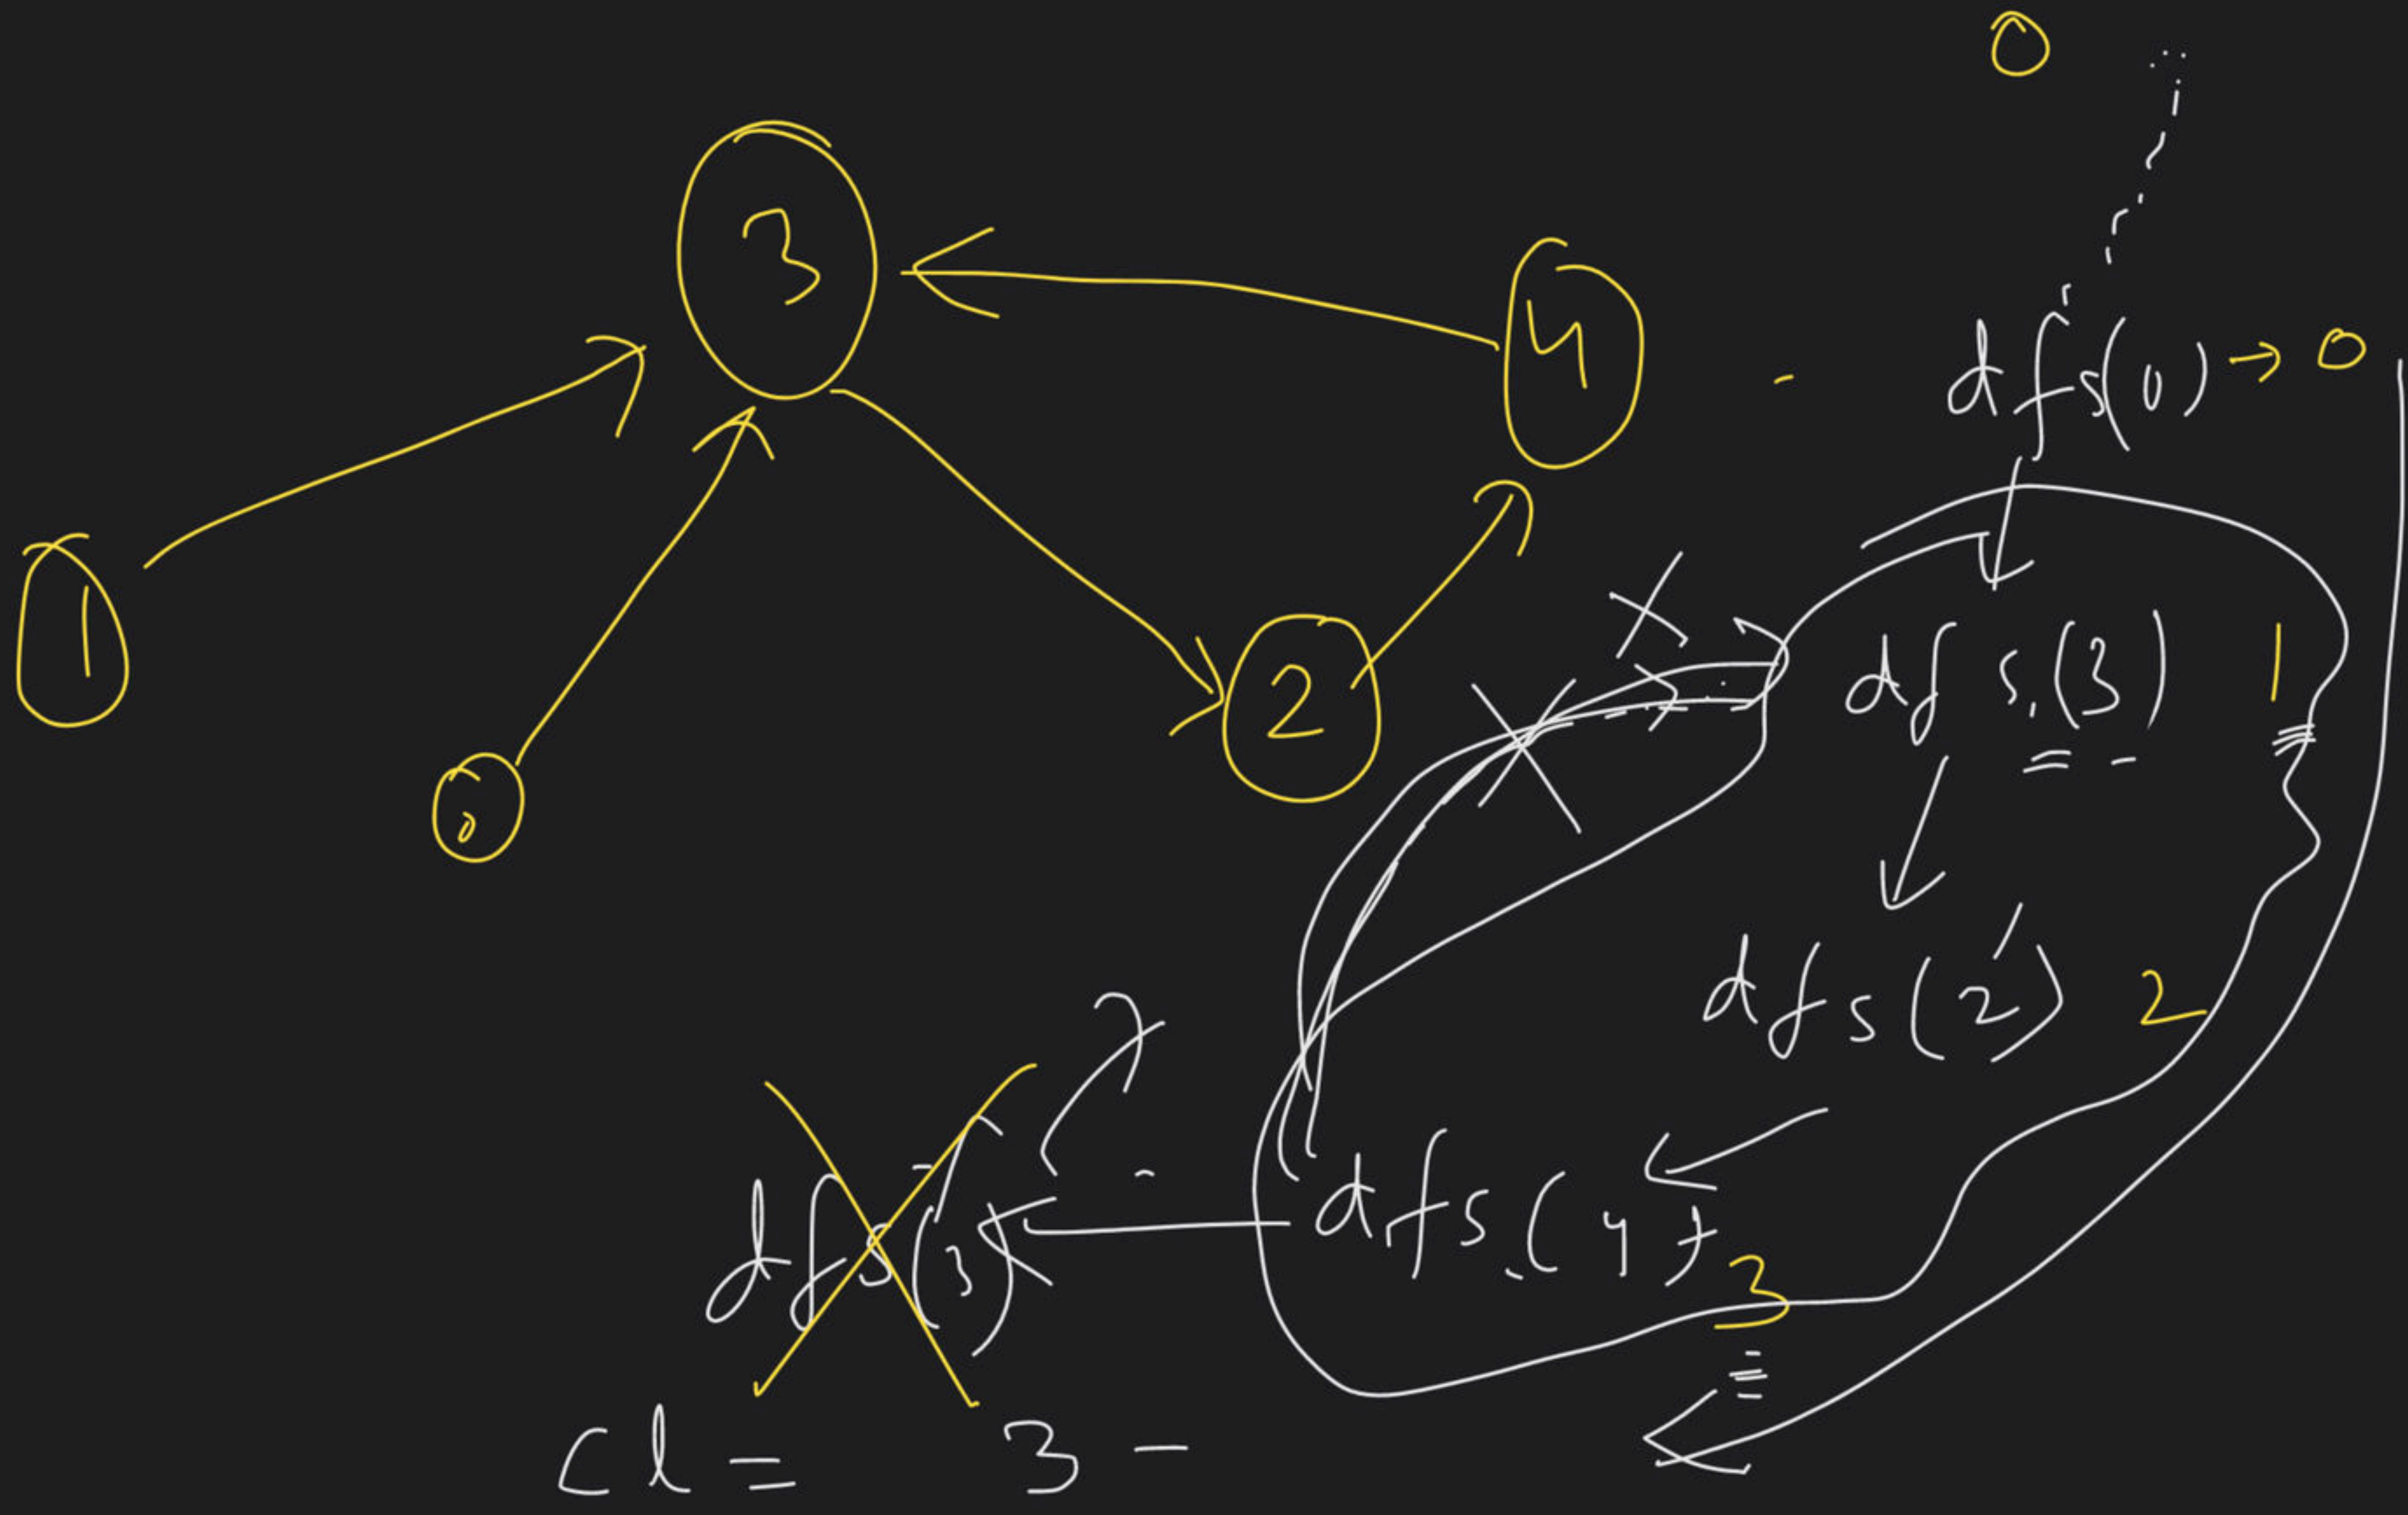

$\Rightarrow$ Bellman for d

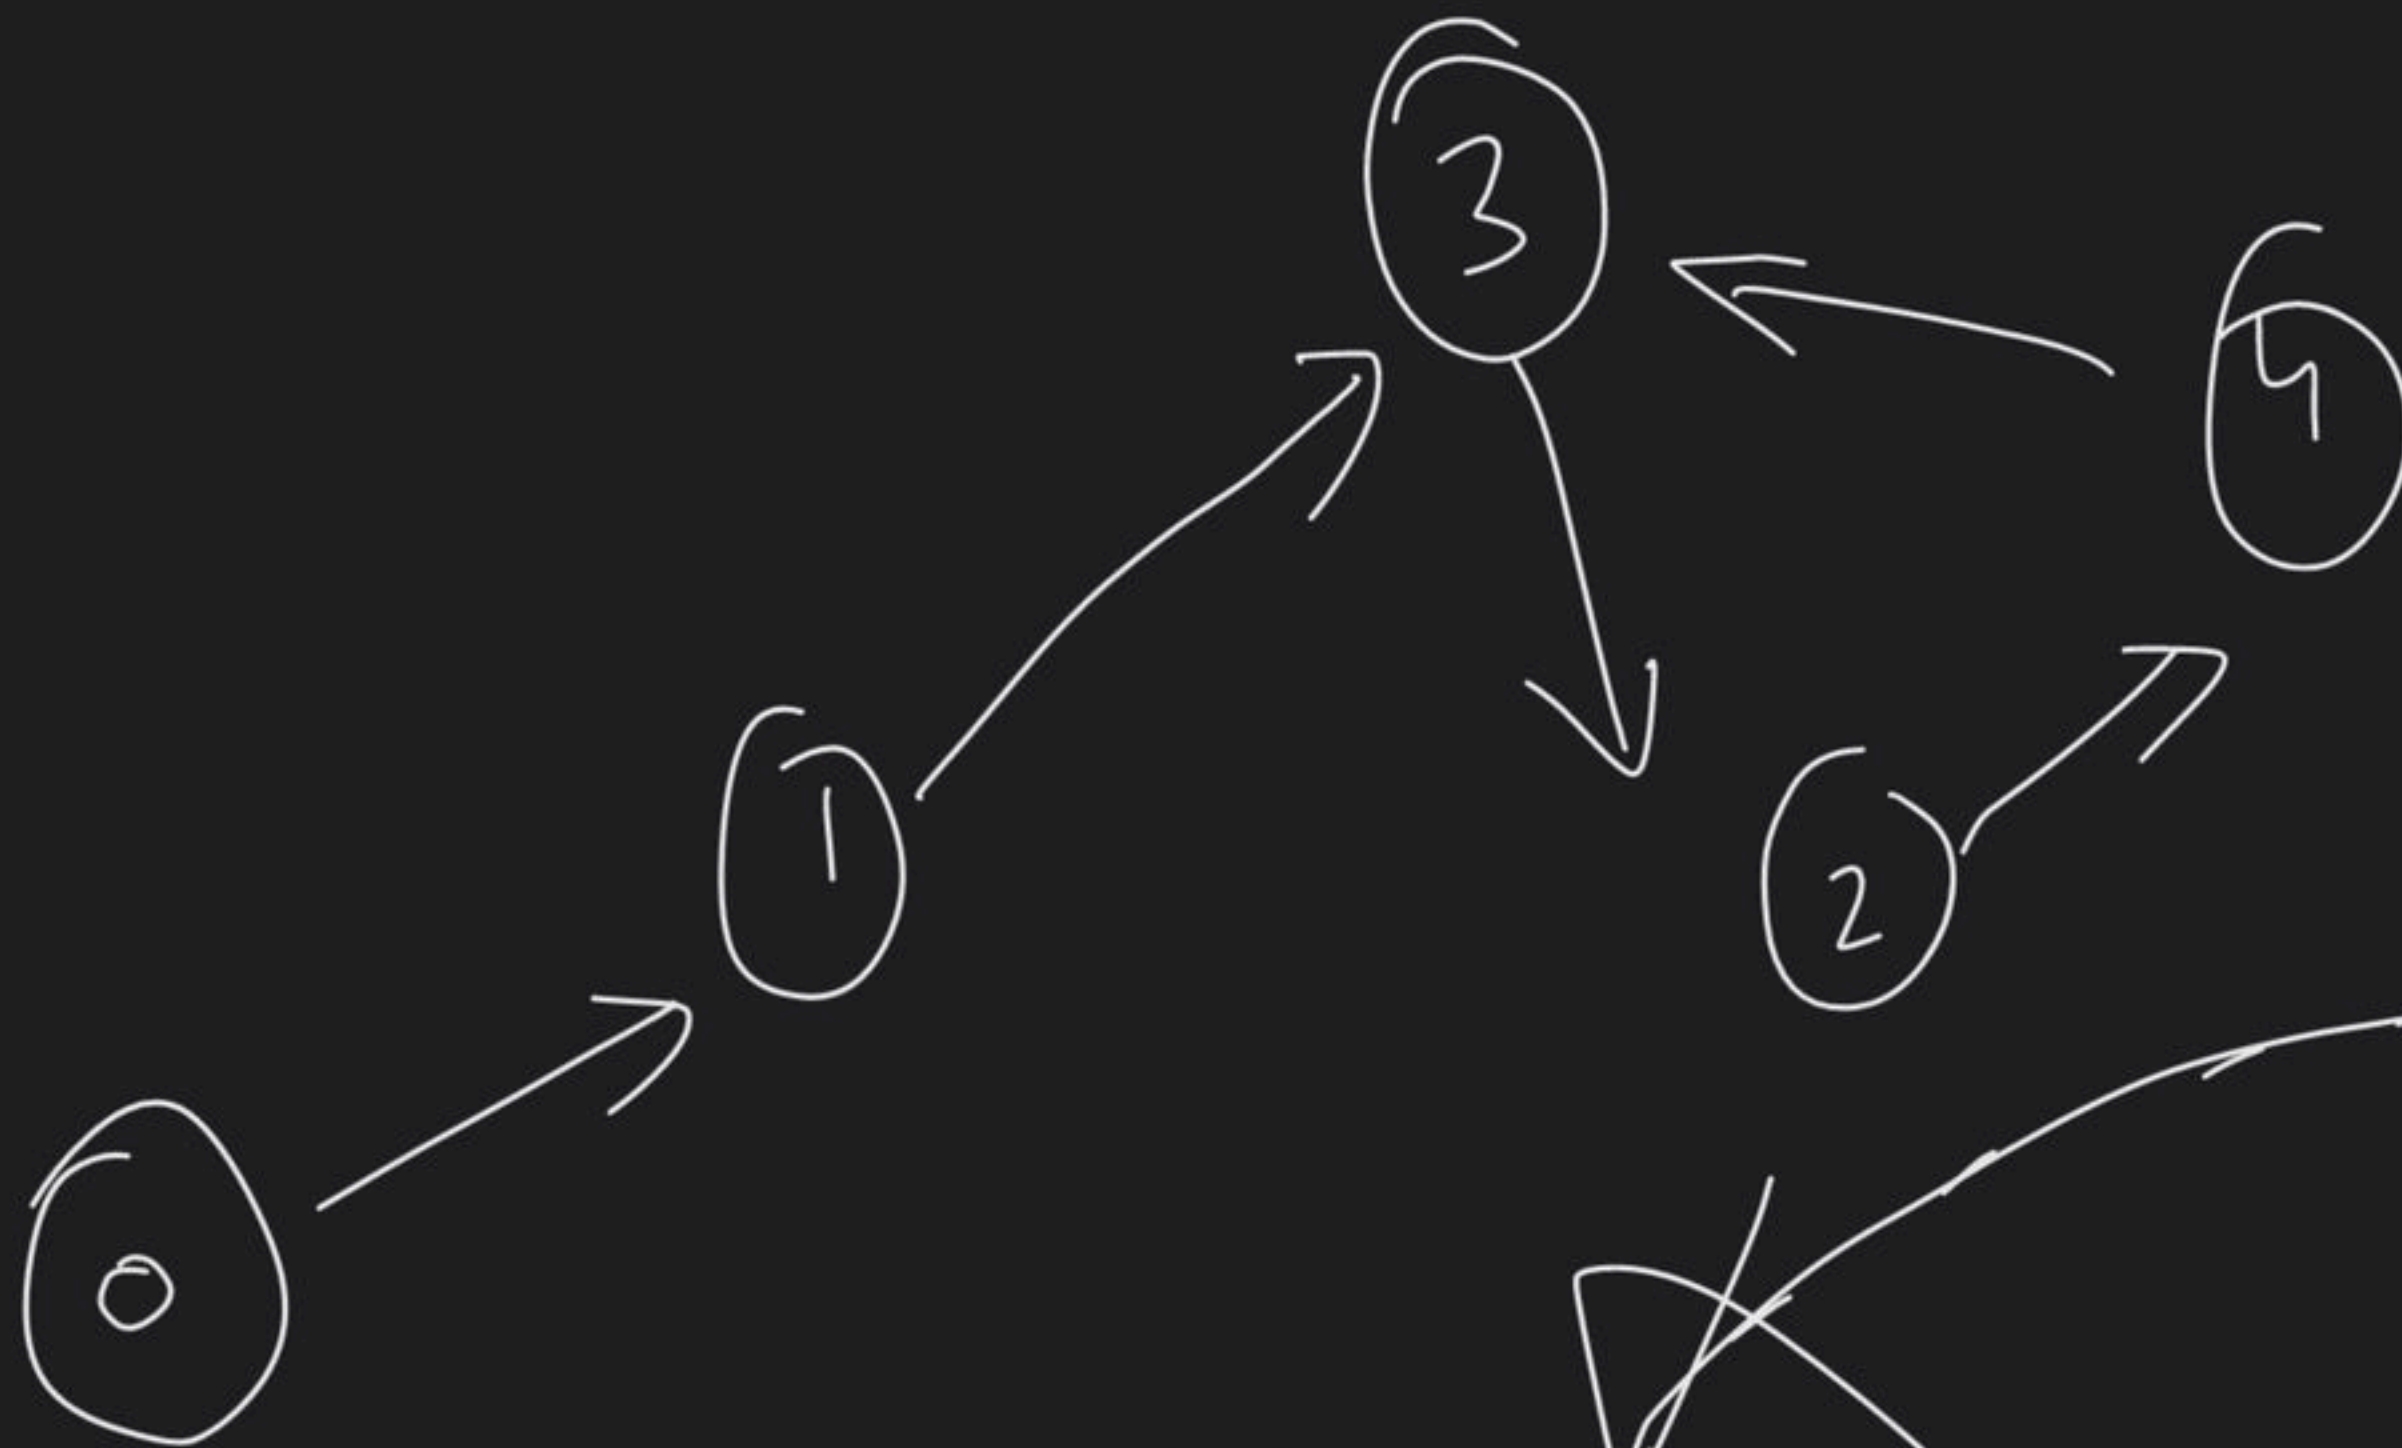

Try Kruskal

④ LL 2360

$f_{min} \rightarrow$ Think & Read

$$dfs(0) \rightarrow 0$$

$$\downarrow$$

$$d(1) = 1$$

$$d(3) = 2$$

$$\swarrow$$

$$d(2) = 3$$

$$\text{dashed box: } d(3) \text{ with a large X over it}$$

$$d_w$$

$$4 - 2 + 1$$

BFS ??

→ Kahn's
algorithm
